
Easyfly3FullVersion [VERIFIED]

easyFly 3 Starter Edition is a program developed by IPACS. The most common version is 3.0.1.11. Over 98% of all installations are currently using . NET Framework 3.0 - this version is also called the "third framework". The program was written in Visual Studio in C#. As in earlier versions of the program, a password is required to install and connect to the server, which must be entered when starting the program. When you start the program, the main program window opens, in which you must enter the administrator password. Below we will walk through the process of installing easyFly 3 Starter Edition and connecting to the server, which is also shown in the figure. Figure 3.1.
