Easy Use Navigation Software - Navisite Free SeaClear Portable is a comprehensive software application which enables you to plan a sea trip by creating a route with multiple waypoints. In order for it to run, the computer must have a GPS connected to reveal your current location, speed and other types of information. Portability advantages As the name says, this is a portable tool, which means that no installation is necessary. It is suffice to extract the program files to any part on the hard disk and just click the executable to launch SeaClear Portable. Otherwise, you can save it to a pen drive to run in on any PC effortlessly. No modifications are made to the Windows registry, and the app does not create additional files on the disk without your permission. Clear-cut interface The GUI is user-friendly, made from a regular window with an outdated look. However, it is quite easy to navigate. The map pinpoints your position via GPS and shows your coordinates, enabling you to set the latitude and longitude of your destination, together with course and speed to make calculations. Add waypoints to create routes and export charts The chart can be exported to image files and reviewed later, the route can be exported, imported, reversed and set as the current one, while tracks can be saved to file and plotted to create routes. Book entries may also be logged and saved to text documents for closer examination. It is possible to zoom in and out of the map, as well as to add as many waypoints as needed. Configure program settings There are many customization preferences available. For example, you can select the boat color, shape, size and radar rings, disable zooming with the mouse wheel, change the default route speed and preload time for the next waypoint, set the route display size, line width and color (normal and selected), pick the measurement unit for depth display, and so on. Conclusion No error dialogs were shown in our tests, and the application did not freeze or crash. It had minimal impact on system performance. Although it has not been updated for a while, SeaClear Portable provides users with the necessary tools for putting together routes for navigating by sea. SeaClear Portable Overall User Rating: Ease of Use Value for Money Very Good Disclaimer: We are a review site and do not store any files on our servers. We only index and

Virtual Desktop allows you to move your Windows desktop on any display, even if it does not have a mouse and keyboard. You can also run the app on the secondary monitor with ease. Virtual Desktop works with graphics cards that are supported by DirectX. As a result, it is compatible with monitors or displays that are connected to your PC via DVI, HDMI or DisplayPort cables. With Virtual Desktop, you can create virtual desktops on the fly and switch between them at will. This is a useful feature when you use multiple monitors and want to have multiple desktop images simultaneously, and make changes in one of them without altering others. With Virtual Desktop, it is possible to save your workspace snapshots and go back to them anytime. Virtual Desktop is always on, and you can continue using your PC even when not working with it. This is not the same as disconnecting the monitor or switching your PC off. Supported graphics cards: NVIDIA Graphics Driver and Windows Vista or later versions of Windows Intel GMA Integrated Graphics Card and Windows Vista or later versions of Windows AMD Radeon Video Cards Included Software: Virtual Desktop: Supported Desktop Sizes: 1024x768 1280x1024 1366x768 1440x900 1600x1200 1920x1200 1920x1080 2560x1440 2880x1600 2940x1440 3200x1800 3840x2160 3840x900 768x1024 1280x800 1360x768 1440x900 1600x1200 1680x1050 1920x1080 1920x1200 1920x1440 2048x1536 2560x1600 2560x1440 2720x2048 3840x1600 3072x2048 3840x2160 4096x2160 3840x2224 4096x3200 75 Hz VESA 100 Hz Maximum Desktop Size: 3840x2160 (3840x1440) 3840x1700 3840x1600 1920x1200 1920x1080 1920x800 2560x1600 1536x1200 2560x1440 1920x1080 1920x800 1280x1024 1280x768 Maximum Resolution Available: 3840x2160 (3840x1440) 3840x1700 3840x1600

#### What's New In?

SeaClear is an advanced portable GPS software that enables you to work on the sea without any delay. Besides, it comes with free tools and services to create routes and export charts with the ability to navigate easily. A successful application SeaClear Portable is a simple and user-friendly program that enables you to navigate on the sea with ease. Even if you are not familiar with this type of navigation, you can create routes to fulfill your travel plans or to study the ocean. What you can do The program comes with several features that enable you to work on the sea. It has the ability to display the speed and direction of the boat while maintaining a current location. It allows you to export multiple maps to plot and share with friends. There are tools to calculate courses and set a pace for the boat. The routes and maps can be exported to image files and shared on social networking websites. What you can't do It does not have support for the ICD-GPS standard. Therefore, it does not work with many devices. On top of that, the program lacks many features. For example, it does not work on tablets. Minimum system requirements Windows 7/8/10/8.1/10.1.
