Alwa is a princess whose father has been taken prisoner by the evil wizard Razbozorg. Her other royal relatives are scattered across a landscape that seems endless, but has small enough villages to be home to the heroes. However, there is

no cure for the princess's amnesia and she has no recollection of who she is, where she came from or how she ended up in this foreign place. The heroes are the seven champions of the seven kingdoms, all looking for a way to get their queen and kingdom back together. The princess is the only roadblock in their path, but they have to work together to find the way to her castle. Features A Classic 8-bit Style - The gameplay is classic 8-bit, with minimal menus and parallax scrolling in a pixel art style. 7 Classic Characters - Each hero has their own distinctive style, class and weaknesses. Classic Puzzles - You'll be doing everything from solving riddles to survival puzzles to fighting, but if you fail, it's not game over. True Retro Hardcore - Eight-bit enthusiasts will recognize the smaller appearance compared to the NES or SNES but enjoy the simpler gameplay. Alwa's Awakening is a game that takes a

lot of credit from the SNES but builds on it with the NES look and feel and with more than just pixel graphics. While the concept of a classic RPG with a lot of over the top gameplay is nothing new, this game takes the best of what 8-bit games and blends them with more modern features such as longevity, multiple difficulties, cute pixel artwork and charming characters. The story is more than just a side quest for your heroes and adds an adorable side story for the princess who has become lost and alone in a world of tall buildings. Each hero has their own class but there is no D-pad so the player must choose between using the A, S, D and buttons to move the character. Unlike many other games this one has no weapons or magic and relies on physical combat. Your heroes will be able to eat food and heal over time, but there will be no replenishing of their health. The heroes are also limited in

terms of what they can do and cannot eat certain items. You'll have to be a little careful with your inventory so you don't run out of stuff. Another problem for the team was making the game have a long lifespan. No DLC characters or expansions were ever planned, but they'

This is a great support pack. Two grenades, two support items. It's nice to have the stuff in the DLC available after the main game is completed. The Caustic Bomb is one of my favorite things. Great idea, great graphics, great music. What is lacking is more features. More proper PvE content, especially in the form of side-quests. I'm not a hardcore gamer. I play about 4 hours a week. This has really been my only "play" time in the last two years. However, I did get the game earlier this year and I played it once and it wasn't a huge fit for me. Although not the best DLC, the waste walkers are in some ways my favorite faction. The PvP is fun

and the game has lots of things to do. It's almost like a standard PvP game with an RPG angle. If you like having a full environment, you might want to pass on this DLC. If you like the idea of a sandbox PvP game, this might be for you. The PvE content is, at best, lame and in some ways really disappointing. This is a great support pack. What's new in Choice Of BroadSides:

: Dave's Match Report One day when we were writing this, Dragons with a four-nil lead and a four-nil scoreline, we started to suspect that our poor reviewer was drunk on the challenge. There was an inexplicable stream of wild (for the sake of the story) comments and opinions made in what was otherwise about as respectful as a game, between the bookies, could be, and there seemed to be some outlandish conspiracy by the bookies to drive the betting online. We checked that out, and while the bookies certainly dictated their own betting odds, our reviewer was definitely sober, as, unless he had the pot in front of him, he had no interest in an online venture he had no interest in. Read on; our reviewer is equal parts equal, both good and bad. And if you have the same view as he does, your comments are also appreciated. Suzuki It was a night for a sponsor. First, the Dragons, and now the Tigers, but what

a boring game that had been. They were all tired, with some having to run the gantlet of the home supporters for long distances, and even after they had arrived to White Hart Lane they were obviously on the edge of exhaustion. They played their best game of the day after 85 minutes, but perhaps they had been saved by their bus taking them back to the camp; for the final minutes had been, for the second straight time, dreadful, with only a little fluency in the sideways passes and a couple of corner-kicks hit into oblivion to assert any will in them. Earlier in the day, we had watched the other two games, with all three being dull. All three didn't seem to have any idea what they were doing, with the Bulldogs, Richmond, and Force all unable to muster a single attack or effort. It's the status quo, but it's still a long way off the norm. As the game kicked into that final 25 minutes, Reds felt first-up, hence our review. The Dragons knew what was going to happen, but could only stare in incredulous horror as Kris had one of those breakaways against them, dribble past Tom with a side-step, then: "Not our best friend." Suzuki opens his mouth but doesn't know what to say. Then he tries, "Yes, not our friend..." and
