How to open pdf in Mac as if it is a new document and not just an image?. I cant understand what the problem is. Thanks a lot. A: You don't need to use a PDF editing tool to edit a PDF. Use Preview (or any PDF reader program) to go to page 2 and click the Edit button in the top right. [EDIT]: You have a couple of problems with your code. One is that you have a stray semicolon just before title, and the other is that you are doing things in the wrong order. I changed it so that you don't need to copy the image and then paste it into your document. Instead you are filling the data with the correct path, then the image itself, then the path for the image. This automatically

---

generates an image in the document with the content you want:

```
import os
import docx
from PIL import Image
path = "C:\\Users\\home\\desktop\\Desktop\\bat-exemplo.pdf"
with docx.Document(path) as doc:
    # Create table for the data.
    # Format the rows as tabular data.
    data = [
        ["Nome do Comerciante", "Numero de Referencia: ", "Tipo de Boleta", "Situado na Cidade", "Imóvel"]]
    data[0] = ["Jonh-Carlos", "", "", "Salão", "Cidade.com.br"]
    # Create content with that data
    # Replace my_image with the name of your image file
    doc.add_table(data, my_image)
doc.save()
```

BTW, docx is an open-source version of the popular MS Word format. You can get it at [www.cosmose.net/en/](http://www.cosmose.net/en/).

**Boomerang Kids** is an American radio program. It aired weekdays at noon on Radio Disney from August 21, 1990 to June 25, 1999, and was hosted by Mike Riley and Ashley Rose. In 1995, the program was recorded at Disney's Hollywood Studios, and many of the outdoor set pieces were the
