SQL Server 2008 R2.Q: Is there a way to suppress all errors on a condition (Google Sheets API V4) I have a script which runs every day at 9am and is supposed to run through the entire file. Everything runs smoothly for the first few days, and then I get a run time error of "Start date has to be on or before the end of the current month.". I tried making a custom function to check for the start date in order to suppress that error message but couldn't get it to work. Here's the function I tried but didn't work: function suppressErrors() { var dateRange = SpreadsheetApp.getActiveSpreadsheet().getSheetByName("Sheet1").getRange("N7:R32"); if (dateRange.getValues().some(x => x[0][0]==21)) { dateRange.setValues([]);
