For information about AutoCAD on the Windows platform, see AutoCAD Architecture, AutoCAD Electrical, and AutoCAD Civil 3D. Key Features Autodesk AutoCAD supports a number of important features for the drawing and structural design of infrastructure and construction project data. Among them are: Object-based design - enables you to design by object, with options to work in an immersive manner and visualize the effects of a change in one object on another. Complex and parametric geometric modeling - the ability to manipulate, model, and represent objects in 3D space. Extrusion - enables you to automatically draw in 3D space using the default coordinate system. Extrusions can be used to create arbitrary surfaces on various 3D objects, such as walls, roofs, columns, pillars, beams, and other architectural objects. Profiling - enables you to easily profile your 3D drawing and modify features, such as fill heights and widths, for entire sections of the drawing. Feature-based drawing - the ability to tag, flag, and organize features in a drawing for convenient and efficient review. D-Day Veterans WWII Special: How To Visit Normandy From The Ground Up Enlarge this image toggle caption Tony Mascolini/Getty Images Tony Mascolini/Getty Images Although the 65th anniversary of D-Day is in the rearview mirror, June 6, 1944 will live on in our collective memories and the men and women who made it possible will be remembered for generations to come. Today, many Americans still don't understand what their forebears endured on that harrowing day. But the men of Normandy and the other Allied beaches have a tangible connection to the place they fought and lost. So, why not pay them a visit? Enlarge this image toggle caption Wolfgang Kaehler/Getty Images Wolfgang Kaehler/Getty Images France's most famous World War II veterans and their descendants come together each year for commemorations and battlefield tours in the region. Some were there during the Battle of Normandy in 1944 and other veterans followed. Today they're still there, maintaining the peace and making visitors feel as if they've been transported back to the war. Our D-Day Veterans WWII Special tells their stories. One tour guide for veterans explains what it's like to be part of the world's biggest WWII memorial. And here's a look at the places that have been hallowed ground for generations.Q: How to find and remove number from a line of text? I have a string such as (length=12). . (length=8). And I want to find the number of time it appears in the string (as an example, there is 2) and then remove the number from the string. For example: . (length=8). I am using Java. A: I assume you want something like: String text = "(length=12). (length=8)."; String[] pieces = text.split("(?=\\d)"); String preprocessedText = ""; for (int i = 0; i
