Euro Truck Simulator 2 V1.26.2.0 47 DLC Bot

today, we reveal how to connect the mysterious box, with its countless contents, to your computer. as promised we will also upgrade the game's graphics engine on the pc platform for the first time in a while, to provide a better experience to more players worldwide. as many of you might have noticed, the box with its mysterious contents has not been available on pc so far. thanks to the great resources of kickstarter backers, simtruck released a truck racing game in february 2017, to give a more exciting truck racing experience to all pc gamers. sim truck was developed by the team of the game euro truck simulator 2 and this is the reason it is included for free in the new game update. the game is available on steam and with the box the game will now be available on pc for the first time. now that we've revealed what the box is all about, what you can expect to find inside is something that's very special for the ets2 community. special thanks to our backers on kickstarter, who you can see in the picture. more information about the contents of the box is coming very soon, including more information about the dlc package. we have already started development of the career mode and the new achievements, which will be included in a new update. the whole team is working really hard to improve the game in every way, so there is always more to come. a new feature of this game is the possibility to add or remove a license plate for your truck in the actual game world. additional accessories can be added. as you can see in this picture, you have to purchase a specific number of accessories through the dlc to unlock this feature. 5ec8ef588b
